ELEVATING FAN DECOR

FANS • HOME APPLIANCES • LIGHTING • SWITCHGEAR
When you first put your gaze on Orient Electric’s new range of Lifestyle Fans, you take a moment, maybe two, to admire their perfection. You realise that they look nothing like a fan. Then, that they are the best fans that you ever came across.

The reason for this could be many. It’s probably because they were never designed like a fan, but as a piece of décor. Or, it could be that their beauty never dwarfs their efficiency and technological mastery. Or even, because they are one of a kind.

Whatever it maybe, we can assure you that you won’t be thinking about any of it while sitting awestruck in your living room, looking at your Orient Lifestyle Fan every two seconds.

We started our journey more than 60 years ago, manufacturing and distributing highly efficient, premium-quality fans. Since then, we have grown, embracing new frontiers in technology and innovation, to become one of the leading consumer electrical brands in India. Today, we are the largest manufacturer and exporter of fans from India with a dominating global presence in over 35 international markets. In the domestic market, we enjoy a robust pan-India reach with over 1 lakh retail outlets and a service network covering 300 cities, aided with a 24x7 call center.

Not only this, we have also paved the way for pioneering developments in home appliances, lighting and switchgear.

We take pride in our R&D capabilities, spirit of continuous innovation and commitment to manufacturing cutting-edge lifestyle electrical products that meet the needs and expectations of modern consumers.

We’ve always strived to achieve and exceed industry benchmarks in quality and processes through a constant evolution and rejuvenation process.

As always, we’ll continue to partner our customers at every stage of their lives by offering superior lifestyle solutions with technology that makes their world safer, easier and creatively inspiring.
