

EXPANSION: Orient Electric, part of CK Birla Group, has expanded its LED lighting portfolio with new range of LED battens which deliver more light with up to 80% energy savings in comparison to the conventional tube-lights.

LED Battens offer high lumen efficacy with huge energy & cost savings, come without any choke or starter and resolve the age-old problem of flickering tubelights. The new range of LED Battens (5, 10, 18, 20 and 22 watt) is available in 1ft, 2ft and 4ft variants. The range falls in the price range of ₹ 350 to Rs 750.
