

What shall we
MAKE today?

History

Kenwood was founded in 1947 by Kenneth Wood. Since then, the company's entire product development, operation and headquarters have been based in Great Britain.

1947

Kenneth Wood set up a company, The Kenwood Manufacturing Company in his garage in Woking in the south of London - UK. The first Kenwood product ever launched was the A100, a toaster with a clever ability to turn over the toast.

1950

He invented the Kenwood Chef. A major innovation in the existing stand mixer, he added 3 speed outlets allowing for a variety of attachment options fitting to the machine to prepare a number of delicious recipes.

1962

Kenwood moved to Havant close to Portsmouth - UK, to have a larger facility to produce more stand mixers. The Kenwood Chef became a global success.

1989

Kenwood invested in a factory based in China.

1993

Kenwood group expanded by acquiring Waymaster. Then a year later, Ariete, an Italian manufacturer of steam products.

1997

The company now has more than 80 international distributors. Sadly Mr Kenneth Wood passed away, aged 81.

2001

Kenwood became part of the De'Longhi group strengthening its manufacturing, investment in new products and its international commercial network, even further.

2009

Kenwood invents the Cooking Chef. The first stand mixer with a built in induction heating element, which cooks and mixes at the same time.

2014

Kenwood launches Chef Sense with a new approach in the way we connect with our customers, focusing more on an emotional connection on what stand mixers can help you to achieve.

2017

Celebrating its 70th year, Kenwood launches its first app controlled connected product, the kCook Multi Smart.

2020

Kenwood launches Cooking Chef XL and Titanium Chef Patissier XL, the first Stand Mixers with touchscreen controls and app connectivity.

*“quality products,
demonstrate to sell”*

Kenneth Wood

KENWOOD

For over 70 years, Kenwood has designed innovative solutions that have delighted cooks the world over. We pride ourselves on our flair for designing trusted products and attachments that allow you to cook in your own unique style. Like you, we love food. Creating, making, enjoying and sharing is at the heart of what we do and why we have been privileged to have spent seven decades in the heart of many homes.

This catalogue details our current range. From our famous Kenwood Chef range to our innovative hand mixer and cooking appliances, everything you need to ensure Kenwood remains your partner in the Kitchen for years to come.

Feed your IMAGINATION

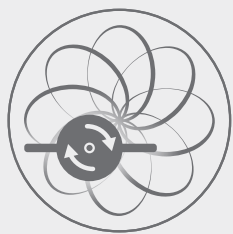

Kenwood Stand Mixers are based on a unique technical concept, allowing your mixer to be one of the most versatile appliances you will ever own. Our unrivalled range of over 25 optional attachments allows cooks to tailor the machine to individual tastes, making Kenwood the perfect choice for home bakers and cooks.

Powerful, versatile and stylish – our reliable and efficient Kenwood Stand Mixers will become your indispensable kitchen partner for years to come.

All Kenwood Stand Mixers come with 3 bowl tool as standard; K-Beater, whisk and dough tool – all designed to help create a variety of dishes including; cakes, breads, pastries, meringue, icing and much more.

Total Mix Planetary Action

The bowl tool moves in one direction and the socket turns in the opposite direction making sure all the mixture is picked up from around the side.

Mess Free Baking

Kenwood Stand Mixers have powerful motors ranging from 900-1700W, designed to give optimum control and performance with variable electronic speed control, the microprocessor technology provides precision control for gentle light mixing to heavy loads.

CHEF XL TITANIUM

Bowl Tools

High performance bowl accessories come as standard supporting you with every baking task.

Spiral Dough Tool

To mix bread dough, pizza dough, pasta dough or brioche.

Creaming Beater

Perfect for the most delicate cake mixes and toppings. Its pliable wings work around the sides of the bowl to ensure an even consistency throughout the mix.

Folding Tool

Create light mousses and fluffy soufflés. A unique patented tool to effortlessly fold heavy and light ingredients together and create perfectly airy and fluffy mixtures.

CHEF XL TITANIUM

Our *BEST EVER* Chef

What can you CREATE with a Chef XL Titanium?

With a Chef XL Titanium the possibilities are endless. Designed for the passionate home baker, its thoughtful features help make your creations even better. From the in-bowl illumination to better gauge your mixes, to the complete power control giving you the range to make both a perfect loaf and deliciously light soufflé.

The power to inspire

From durable stainless-steel tools to the electronic speed control, Chef XL Titanium has everything you need to stretch your imagination.

The Kenwood Chef XL Titanium is the ultimate kitchen machine, giving you the confidence to become more ambitious and inspire your creativity in the kitchen.
