WELCOME TO THE FUTURE OF FANS
SIX DECADES OF TRUST, INNOVATION & EXCELLENCE

We started our journey more than 60 years ago, manufacturing and distributing highly efficient, premium-quality fans. Since then, we have grown, embracing new frontiers in technology and innovation, to become one of the leading consumer electrical brands in India. Today, we are the largest manufacturer and exporter of fans from India with a dominating global presence in over 35 international markets. In the domestic market, we enjoy a robust pan-India reach with over 1 lakh retail outlets and a service network covering 450 cities, aided with a 24x7 call center.

Not only this, we have also paved the way for pioneering developments in home appliances, lighting and switchgear.

We take pride in our R&D capabilities, spirit of continuous innovation and commitment to manufacturing cutting-edge lifestyle electrical products that meet the needs and expectations of modern consumers.

We’ve always strived to achieve and exceed industry benchmarks in quality and processes through a constant evolution and rejuvenation process.

As always, we’ll continue to partner with our customers at every stage of their lives by offering superior lifestyle solutions with technology that makes their world safer, easier and creatively inspiring.
Many of the innovations in the fan industry that are now taken for granted came from the research of Orient Electric's R&D centres and from the urge to bring top-quality products to Indian consumers.

Our state-of-the-art ISO-certified manufacturing facilities at Faridabad, Kolkata and Guwahati employ some of the most modern technologies, such as automatic stator winding plants and automatic liquid paint shops, in order to improve productivity and to meet the increasing consumer demand.

Quality being the key driving force behind everything we do at Orient Electric, we conscientiously follow the Six Sigma processes to manufacture zero-defect products.

In India we are the pioneers of die-casting the rotor and fan body cover in ceiling fans and the semi-automatic coil-winding process.

Accolades as glorious as our range

Our unwavering commitment to quality, innovation and excellent customer service has been recognised both nationally and internationally. We have been conferred with the illustrious ‘Make in India Award for Excellence’ in 2015, the prestigious ‘Asia’s Greatest Brand award in 2016 and the globally acclaimed ‘Superbrand’ status in 2019.

We have been listed as one of the top 15 most trusted Indian brands in the consumer durables category, consecutively in 2014 and 2015. We have also been recognised by the Limca Book of Records for producing the maximum number of ceiling fans from a single manufacturing unit in 2014-15. We have been consistently awarded the ‘Star Performer’ for many years by the Engineering Export Promotion Council (EEPC). Last but not the least, we’re rated as the ‘Star Export House’ by the Ministry of Commerce and Industry, government of India.
At Orient, we constantly strive towards greater efficiency and with that vision, we have designed the innovative i-Series fans. The state-of-the-art BEE 5-star rated i-Series fans powered by ECM technology save up to 50% energy and also comes with IOT and voice controlled. They offer superior and silent performance even at low voltage. Now that’s called smart, isn’t it?

i-Series Fans
powered by ECM Technology
The new age of fans is here, and it won’t be an overstatement to call the Orient Aero Series as the flag-bearer of this change. The Aero Series fans have many sides to them. They are bold, dynamic and premium. They also are technologically unmatched, governed by the core principle of aerodynamics, applied in aircrafts and Formula One cars.

This design and the use of new-age material reduce friction and air turbulence like never before. The result? Drastically reduced fan noise and an unmatched air thrust.

So, wait no further. The coolness, the silence, the future await you.

Presenting Orient Aeroslim:-
India’s first inverter fan.

Set to redefine ceiling fans with its one-of-a-kind cylindrical design, the Orient Aeroslim will be the centre of attraction in every room. Its telescopic adjustable mounting compliments both traditional and modern ceilings. The seamless design and the premium hydrographic finish paired with the PU paint make this fan an objet d’art.

The Aeroslim takes the technological genius of the ‘very silent, very powerful’ Aeroseries fans to a whole new level. Its advanced aerodynamic blades give an impressive air delivery of 240CMM, and its super-efficient inverter motor works on just 45W of power while ensuring silent operation at voltages as low as 140V. The Aeroslim has a sweep of 1200 mm, with blades made of high-grade glass-filled compounded ABS, making them bend-proof, rust-proof and of course, easy to clean.

Wait, there’s more to the Aeroslim. This smart fan is IoT-enabled, & voice putting comfort and control at your fingertips. The IoT control gives users the freedom to manage fan speed and modes, reverse rotation and lighting. With mesmerizing looks, aerodynamic design, remote-controlled operation and IoT technology, the Orient Aeroslim has everything you could ask for in a fan.

**Art meets technology**

Inspired by the ground-breaking winglet technology in modern aircrafts, Orient’s new-age Aerostorm fan is revolutionary in its own right. The unique winglet design of the blades minimizes the vortex, delivering higher air thrust and minimal noise.

**How does it work?**

The pressure at the wings creates a vortex and drag. The winglets help reduce this vortex at the wings, resulting in a smoother functioning and lesser noise.

- Aerodynamic blade design for higher thrust and air delivery
- Winglet in blades minimizes the air vortex and noise
- Eye-catching spiral curves in canopy, curves in blades and bottom cover plate
- High-gloss PU finish
- 100% rust-free blades made of high-grade compounded ABS for durability
- Sturdiest and heaviest motor design for longer life

AERO SERIES
The perfect blend of design and functionality
Orient Aerocool takes the technological genius of Aerostorm a step further. Apart from having the winglet, the blades are shaped after the aerofoil design of modern aircraft wings. This results in higher lift, better thrust and lower noise.

How does it work?
The air delivery of a fan depends on the air velocity and the area covered by it. If the air thrust increases, so does the air delivery. The aerofoil design helps in increasing the air thrust, and therefore the air delivery.

- Aerofoil blade design for higher thrust and air delivery
- Winglet in blades minimizes the air vortex and noise
- High-gloss PU finish
- Awe-inspiring seamless design
- 100% rust-free blades made of high-grade compounded ABS for durability
- Sturdiest and heaviest motor design for longer life

- Powder-coated in metallic colour  
- Ideal for low end industrial use

---

**SPRING AIR**

**Sweep (mm):** 225, 300  
**Air delivery:** 650, 1290 M³/Hr  
**RPM:** 1300, 1300

- Economical, powder-coated finish  
- Resin blades for easy cleaning
Presenting

Industrial Fans

Heavy-duty fans for industrial use.
Thunderstorm Wall Fan
Aircirculator Wall 18/24
Air Circulator Stand 18/24
Thunderstorm Stand Fan
Heavy Duty Exhaust
THUNDERSTORM WALL FAN

Sweep (mm) : 450
Air delivery : 9000 M3/Hr
RPM : 1450

- Air circulator motor for high air delivery
- Narrow blade profile with aerodynamically designed blade for low noise
- Floating arrangement for changing the position of oscillation
- 3-speed adjustment through the piano switch
- Tilt adjustment for adjusting the fan till 15° angle

THUNDERSTORM STAND FAN

Sweep (mm) : 450
Air delivery : 9000 M3/Hr
RPM : 1450

- Air circulator motor for high air delivery
- Narrow blade profile with aerodynamically designed blade for low noise
- Floating arrangement for changing the position of oscillation
- 3-speed adjustment through Piano Switch
THUNDERSTORM WALL FAN

Sweep (mm) : 600
Air delivery : 18000 M3/Hr
RPM : 1450

- Air circulator motor for high air delivery.
- Narrow blade profile with aerodynamically designed blade for low noise.
- Floating arrangement for changing the position of oscillation.
- Tilt adjustment for adjusting the fan head tilt up to 15°

THUNDERSTORM STAND FAN

Sweep (mm) : 600
Air delivery : 18000 M3/Hr
RPM : 1450

- Air circulator motor for high air delivery.
- Narrow blade profile with aerodynamically designed blade for low noise.
- Floating arrangement for changing the position of oscillation.
- Air direction control by telescopic height adjustment & motor oscillation.
HEAVY DUTY EXHAUST

Sweep (mm): 300, 380, 450, 450, 600
Air delivery: 1750, 3500, 3900, 6200, 10000 M3/Hr
RPM: 1400, 1400, 900, 1400, 900

- Designed to effectively combat pollution, sucks out smoke, dust, colour & other pollutants, making the workplace clean and fresh.

---

WALL AC 18

Sweep (mm): 450
Air delivery: 8100 M3/Hr
RPM: 1400

- Powerful air circulator motor for continuous operation
- High air thrust which is best in the category
- High torque gear box with safety clutch
- Indexed floating system in the motor head
- Environment protection with durable powder coating

---

Important: To maximize air delivery over the required area, your Orient Electric ceiling fan should be 2.1 meter or more from the ground and 30 cm or more below the ceiling. For large rooms with more than one fan, the center distance between each will depend on sweep.

- Visuals shown in the brochure, may vary slightly from actual product
- All ceiling fans are with double ball bearing
- All delivery may vary ±5%
- All specifications are subject to change without any prior notice
- Models may change during the year
